

Because Every test is a **Life**™

A global leader of in vitro diagnostics for over 80 years, our purpose is simple: to improve and save lives with diagnostics. It's what defines us. Ortho Clinical Diagnostics delivers the high-quality in vitro diagnostic solutions that give healthcare professionals around the world the information they need to make treatment decisions sooner.

We serve the global Transfusion Medicine community with donor screening and blood typing solutions to help ensure every patient receives blood that is safe and the right unit. We also bring sophisticated information management, testing technologies, automation and interpretation tools to Clinical Laboratories worldwide to help them run more efficiently and ensure exceptional patient care.

Ortho Clinical Diagnostics

CLINICAL LABORATORIES

Pioneer of infectious disease assays and MicroSlide technology. Our VITROS® Systems family of analyzers provide reliable, accurate, and precise testing that eliminates variables associated with sample interferences and water quality, which can impact the integrity of test results.

67%*

REMOTE RESOLUTION RATE

We resolve most issues without dispatching a field engineer.

89%*

SAME-DAY REPAIR RATE

We resolve a majority of service orders the first time.

30%*

IMPROVEMENT IN RELIABILITY

We continue to reinvest in our products, technology, and people to give you solutions you can depend on.

*Data on file.

TRANSFUSION MEDICINE

Pioneer of the Rh blood group system and of the first test for the detection of antibodies to hepatitis C. We introduced the first fully automated immunohematology analyzers that changed Transfusion Medicine. With the ORTHO VISION® Platforms we have redefined what automation means to laboratories.

WORKFLOW AND DATA MANAGEMENT SOLUTIONS

Ortho offers standardized solutions to help your laboratory optimize labor by freeing operators' time to focus on complex results and provide better service to your physicians and patients.

ORTHO CARE™: Industry-Leading Approach to Service and Support

★ The People

Providing customized, customer-focused solutions, our highly skilled team of field engineers, technical solution specialists, and laboratory specialists keep your analyzers running smoothly, minimizing interruptions to patient care.

The Technology

With first-in-class technology, the Smart Service app arms our Ortho Care™ teams with analyzer intelligence in the palms of their hands. Ortho field engineers have the information they need to quickly and completely resolve issues, giving you faster resolution and improved reliability.

ValuMetrix®

We combine the power of six sigma, lean thinking, and design excellence to partner with you and ensure that you have the right solutions that best fit your unique needs.
